## Software Engineer | Data Analyst | Machine Learning

### Education

#### ITM (SLS) Baroda University

Gujarat, India

B.Tech in Information Technology: CGPA: 8.3/10

### Work Experience

#### Penetration Testing Intern | BreachBlock Co.

Jul 2024-Sep 2024

#### Data Visualization Intern | Tata Group

Sep 2024

#### Embedded Systems Intern | Emertxe Information Technologies

May 2025

#### Summer Intern (Python with Django) | BrainyBeam Technologies

June 2025

### Skills

**Technical Skills-** Machine Learning and AI: Model Evaluation & Feature Engineering Computer Vision (OpenCV, DeepFace, MTCNN). Statistical Data Analysis

**Data Science & Analysis :** Data Cleaning & Preprocessing, Data Visualization (D3.js, Matplotlib, Seaborn), Data Analysis using Python & R, SQL for Data Querying.

**Programming & Development:** Python, R, Java, C, HTML, CSS, Django Framework, SQL & DBMS

**UI/UX & Frontend:** UI/UX Design Principles, Figma, Responsive Web Design

### Projects

#### Mood Analyzer: Class Engagement Detection

Self

Developed a computer vision-based system to analyze classroom and detect students' moods using facial expressions.

Predicted engagement levels using emotion recognition techniques.

**Tech Used:** Python, OpenCV, DeepFace, MTCNN

**Skills:** Computer Vision · Image Analysis · Engagement Detection

#### Recipe Website - UI/UX Design

ITM University

Designed an interactive, responsive recipe website in Figma with a modern layout and user-friendly interface across four key pages

**Tech Used:** Figma

**Skills:** UI/UX Design · Wireframing · User-Centered Design

#### Unemployment Analysis (COVID-19 Impact)

Self

Analyzed unemployment trends in India pre- and post-pandemic using statistical modeling. Delivered visual insights through plots.

**Tech Used:** Python, Pandas, Matplotlib, Seaborn

**Skills:** Data Analysis · Visualization · Statistical Modeling · Project Management

#### Website Development (Style Cleaners Alterations – Canada)

Self

Designed and developed a fully responsive business website for a Canadian laundromat, incorporating branded content and essential business tools.

**Tech Used:** HTML, CSS, JavaScript, Canva, Figma

**Skills:** Web Design · Branding · Client Communication · Mobile Responsiveness · UI/UX Design · Project Management

#### Student Database Management System

ITM University

Built a DBMS application to manage student records efficiently with CRUD operations.

**Tech Used:** SQL, DBMS Concepts

**Skills:** Database Design · SQL · Data Integrity

### Certifications

- Data Visualization: Empowering Business with Effective Insights Job Simulation- **Tata Group**
- Introduction to Generative AI- **LinkedIn Learning**
- Foundation Course in Python , Data Analysis , AI and SAP Chatbot- **SAP and Edunet Foundation**
- Personality Development and Soft Skills - **SAP and Edunet Foundation**
- Gen AI Study Jam Computing Fundamentals- **Google Developer Groups**
- Advance Course in ML, IOT, CV, ABAP- **SAP and Edunet**

### Awards & Achievements

Mar, 2025 **Top CV Project** , ITM University

ITM University
